About Ventures

We're working to create the world we want in partnership with rural Latino working-class families in California's Central Coast to ensure a shared and equitable economic future for all.

Our transformational programs make certain that individuals understand and use their economic and political power. From building their savings to advocating for a living wage, our approach builds community and connects financial stability, wealth building, and self-determination.

Our work creates dignity by recognizing, acknowledging, and valuing our community members' leadership in making change happen. Together, we are working towards a shared and prosperous economic future where zip code, race, gender, or immigration status do not dictate income or wealth.

We believe that:

- Money, and how it is earned, used, and implemented to build wealth and financial systems, is a key component to building wellbeing and a vibrant society.
- We must be intentional and explicit in our work towards racial and gender equity, as social systemic oppressions, including those based on race and gender, are replicated and augmented through the current economic system and related policies.
- Local economies and equitable distribution of income and wealth provide the greatest return and align best in creating wellbeing.
- Money and financing are not well understood and there is a level of mystification around the topic that prevents engagement.

We work in ways that:

- are family centered and culturally appropriate;
- remove system level barriers to economic equity;
- provide leadership development and financial education for children and youth;
- develop new financial and asset building vehicles; and
- lift and leverage the great work already being done.

Our geographic reach encompasses Monterey, San Benito, and Santa Cruz Counties. Ventures is Latina, immigrant-led organization.

About Semillitas

Semillitas aims to create a community of belonging and hope for every child in Santa Cruz County. Launched in 2021, **Semillitas**, which means small seeds in Spanish, has three goals: 1) Improve early childhood development; 2) Raise expectations for higher education; and 3) Build dedicated savings for postsecondary education and healthy lifelong financial habits.

To achieve these goals, **Semillitas** automatically creates a College Savings Account (CSA) within 90 days of birth for all newborns in Santa Cruz County. The accounts are seeded a gift of up to \$50 and the program actively works with community leaders to establish and fund additional milestone contributions. These milestones are based on positive behaviors that address existing inequitable economic, health, and educational outcomes for children from working-class households. Once fully implemented, a child should have the opportunity to have been gifted up to \$500 for their post-secondary education by the time they turn five. Learn more at Semillitas.org.

About the Role

This job description is intended to describe the general nature of the work performed by employees in this job. It is not an exhaustive list of all the job's responsibilities. At Ventures, all jobs include broad responsibilities for continually improving the processes we use.
